ABOUT MYSELF

Began my professional journey in backend development while in the 4th semester of my degree, balancing academic responsibilities with real-world projects. Proficient in **Node.js** and **Express.js** for backend development. Extensive experience in building and maintaining **MongoDB** databases. Proficient in **GraphQL** for efficient data retrieval and manipulation. Strong problem solving skills and ability to solve complex problems. Team player with good communication skills. Committed to staying updated with the latest trends and technologies in backend development.

WORK EXPERIENCE

Backend Developer

Skylinx Technologies [01/07/2023 – Current]

City: Lahore | Country: Pakistan

- Led backend development for the innovative Xoom Maps project, utilizing a powerful Node.js stack with MongoDB to ensure flawless data management and optimal application performance.
- Collaborated with frontend and mobile teams to integrate mapping solutions, enhancing user experiences on web and mobile platforms.
- Developed and maintained server-side logic for the Xoom Maps application, ensuring optimal responsiveness and performance.

GraphQL Developer

Skylinx Technologies [01/10/2023 – 30/11/2023]

City: Lahore | Country: Pakistan

- Developed the Truellm project to optimize data retrieval processes by implementing GraphQL.
- Contributed to creating a flexible and efficient API that facilitates front-end clients in fetching various data while minimizing network overhead.
- Refined the backend architecture of the Truellm platform to support evolving needs, enhancing scalability and maintainability.

Laravel Developer

Skylinx Technologies [01/10/2022 – 31/12/2022]

City: Lahore | Country: Pakistan

- Developed ActiveLookup, a robust search and data aggregation platform for enhanced user access to critical information.
- Constructed robust backend functionalities using the Laravel framework for enhanced application performance and scalability.
- Aligned the ActiveLookup project's objectives with company's strategic goals, working closely with cross-functional teams to contribute to its successful deployment
